

List of Nirmal chemical products:

1. Nirmal are a manufacturer of Polyacrylamides. PHPA (Partially Hydrolyzed Polyacrylamide).
2. HTHP Fluid Loss control agent.
3. Drag reduction Polymers.
4. Friction Reducers: - HPAM emulsions
5. All derivatives of HPAM/SPAM with high supply experience with ONGC and Private drilling companies.

Water Treatment Chemicals with Dosing Systems

6. Alum
7. Poly Aluminum Chloride (High & Medium Basicity)
8. Dewatering Polyelectrolytes – Anionic, Cationic & Non-Ionic
9. Chlorine Di Oxide
10. Coagulants & Flocculants – Liquid, Solid & Emulsions
11. Nutrients - NPK
12. Colour removal polymers – Chemicals, Textile, Dyes, process plants
13. Algaecides & Biocides – formulations as per process requirements
14. Self-Formulated chemicals to suit process requirements
15. Grade I & Liquid Alum Supply
16. Treatment chemicals like CWC, Boiler water & Fireside.
17. Activated Carbon.
18. Ferric Chloride (FeCl_3)
19. Odour Control Chemicals in STP
20. Antiscalant, Oxygen Scavengers, Sodium Bi Sulphite, Sodium Hypo Chlorite
21. Mallic Acid, Citric Acid
22. Bentonite
23. Ethyl Benzene, Cyclohexane, Xylene, Toulene
24. RO Membrane Cleaning Chemicals
